Akylbekov limanbek

Frontend-Developer|Vue.js

Results-driven freelance software developer, seeking to use proven Vue and JavaScript skills to deliver coding excellence to Cryptoconic, Inc. Have developed 3 web apps. Contributed to 7 GitHub projects and debugged 2 apps. Wrote Frontend code for 1 working business website.

More than 1y experience of developing.

Experience

○ 2022

Hotel Collective | Japan, Naha

Front Intern

Built SPA sites, and was learning Japanese. Also got my first international job experience. Made JWT authorization using Firebase and have a lot of pet projects.

○ 2022 - 2023

Zhakshy-Zhol

Frontend - developer

I started making SPA using Vue.js for Autoschool. There wrote tests and used Pinia Store, Axios, and Vuetify. My team and I am making this website now, so we are going to deploy it soon. Also, I debugged a lot of conflicts from merging my teams' changes.
